2.	Employment Opportunities for Diploma holders in Electrical Engineering	2
3.	Competency Profile of Diploma holders in Electrical Engineering	5
4.	Deriving Curriculum Areas from Competency Profile	7
5.	Abstract of Curriculum Areas	9
6.	Horizontal and Vertical Organisation of the Subjects	10
7.	Study and Evaluation Scheme	11
8.	Detailed Contents of various Subjects	
FIRST SEMESTER		
1.1	Communication Skills -I	17
1.2	Applied Mathematics-I	20
1.3	Applied Physics – I	22
1.4	Applied Chemistry – I	27
1.5	Basics of Information Technology	30
1.6	Engineering Drawing-I	35
1.7	General Workshop Practice – I & II	38
SECOND SEMESTER		
2.1	Communication Skills –II	43
2.2	Applied Mathematics-II	47
2.3	Applied Physics – II	49
2.4	Applied Chemistry – II	52
2.5	General Engineering	55
2.6	Engineering Drawing-III	62
2.7	General Workshop Practice-II	65

THIRD SEMESTER

3.1	Electrical and Electronics Engineering Materials	66
3.2	Fundamentals of Electrical Engineering	70
3.3	Basic Electronics	74
3.4	Electrical Engineering Design and Drawing – I	78
3.5	Computer Programming and Applications	80
3.6	Electrical Workshop Practice - I	83

FOURTH SEMESTER

4.1	Electrical Machines-I	85
4.2	Electrical Measurement and Measuring Instruments	88
4.3	Electronic Devices and Circuits	91
4.4	Electrical Engineering Design and Drawing - II	94
4.5	Electrical Workshop Practice - II	96
4.6	Estimating and Costing in Electrical Engineering	97
	Entrepreneurial Awareness Camp	99

FIFTH SEMESTER

5.1	Electrical Machines-II	100
5.2	Power-I (Generation, Transmissions and Distribution of Electrical Power)	103
5.3	Industrial Electronics and Control of Drives	105
5.4	Elective –I	108-113
	(a) Instrumentation	108
	(b) Non Conventional Energy Sources	110
	(c) PC Maintenance and Repair	112
5.5	Digital Electronics and Microprocessors	114
5.6	Minor Project Work	117

SIXTH SEMESTER

6.1	Utilization of Electrical Energy	118
6.2	Installation and Maintenance of Electrical Equipment	122
6.3	Power-II (Power System Protection)	125
6.4	Elective – II	
	(a) Energy Management	127
	(b) Optical Fibre Communication	129
	(c) Modern Electric Traction	131

6.5	Entrepreneurship Development and Management	134
6.6	Major Project Work	137
9.	Resource Requirements	142
10.	Recommendations for Effective Implementation of Curriculum	143
11.	List of Experts	164

PREFACE

Curriculum document is a comprehensive plan of any educational programme. It is also one of the means for bringing about qualitative improvement in any programme. Under the Chairmanship of Financial Commissioner and Principal Secretary of Technical Education, Government of Haryana, a one day workshop was organized at National Institute of Technical Teachers' Training and Research (NITTTR formerly TTTI), Chandigarh on 21 January, 2003 in which the senior officers from Directorate of Technical Education/Board of Technical Education Haryana, Principals and Head of Departments from polytechnics of Haryana and faculty from NITTTR, Chandigarh participated and deliberated upon various issues, for bringing about qualitative improvement in the technician education system in the state of Haryana. One of the out-standing and unanimous decision of the above workshop was to review the curricula of all the diploma programmes being offered in the State of Haryana especially with a view to include appropriate levels of courses in applied sciences, mathematics, computers, engineering sciences and courses relevant to the present day environment of changing technologies.

As a follow-up of the above workshop, this Institute took-up the revision of all the curricula of various diploma programmes in Haryana and it was decided that to begin with, this institute would work-out the course structure and detailed contents for the first year of various diploma programmes to enable Haryana polytechnics to implement these from the current session 2003–2004 in order to catch up with the technological developments taking place in the industry/field organizations.

A series of workshops were held at NITTTR, Chandigarh in the months of May-June 2003 and 1st year curriculum of various diploma programmes was handed over to the Haryana Directorate for its implementation from July 2003. This was followed by another series of workshops for revision of 2nd year and 3rd year curricula of all these courses.

The document is based on the feed back from industry/field organizations for wage and self-employment opportunities for the diploma holders in **Electrical Engineering** in large, medium and small scale industries. While suggesting employment opportunities for the diploma holders, the three sectors i.e. primary, secondary and tertiary sectors were kept in mind. The document contains the study and evaluation scheme and detailed contents for all the three years to enable the Haryana Polytechnics to implement the revised curriculum from the following year itself.

While working out the detailed contents and study and evaluation scheme, the following important elements have been kept in mind:

- i) Major employment opportunities of the diploma holders

(ii)

- ii) Competency profile of the diploma holders with a view to meet the changing needs of technological developments and requirements of the employment.
- iii) Vertical and horizontal mobility of the students for their professional growth
- iv) A rational approach for all the curricula of diploma programmes in engineering and technology in the state of Haryana

The document is an outcome of the feedback received by this institute from the experts during the workshop who represented industry, institutes of higher education, research and development organizations, polytechnic faculty and NITTTR faculty.

The revised curriculum aims at developing desired professional, managerial and communication skills as per the requirement of the world of work. We hope that this revision will prove useful in turning out more competent diploma holders in **Electrical Engineering**. The success of this curriculum depends upon its effective implementation and it is expected that the managers of polytechnic system including subject teachers will make efforts to create better facilities, develop linkages with the world of work and foster conducive environment as per recommendations made in the curriculum document.

Dr. KM Rastogi
Professor and Head
Curriculum Development Centre
National Institute of
Technical Teachers' Training and Research, Chandigarh

ACKNOWLEDGEMENTS

We gratefully acknowledge the assistance and guidance received from the following persons:

- i) Shri Dharam Veer, IAS, Financial Commissioner & Principal Secretary, Technical Education, Haryana for initiating this project of review of curriculum
- ii) Director, Technical Education, Haryana for taking keen interest and support in the review of this curriculum
- iii) Dr. OP Bajpai, Director, National Institute of Technical Teachers' Training and Research, Chandigarh for his support and academic freedom provided to Curriculum Development Centre
- iv) Dr. KM Rastogi, Professor and Head, Curriculum Development Centre, NITTTR, Chandigarh for his sustained guidance and support in review of this curriculum
- v) Shri RD Punia and Ms. Sadhna Jain, Joint Directors, Directorate of Technical Education, Haryana for their keen interest and support in the review of this curriculum
- vi) All the participants from industry/field organizations, polytechnics and other technical institutions for their professional inputs
- vii) Shri Yogendra Kaushal, Stenographer, and Shri Mohan Lal of Curriculum Development Centre, NITTTR, Chandigarh for their support and secretarial assistance in the conduct of review workshops and processing of this document.

TN Thukral
