L T P
- - 6

RATIONALE

Drawing is said to be the language of engineers and technicians. Reading and interpreting engineering drawing is their day-to-day responsibility. The course is aimed at developing basic graphic skills so as to enable them to use these skills in preparation of engineering drawings, their reading and interpretation SP 46 – 1988 should be followed

- Note: 1. First angle projection is to be followed
2. Instructions relevant to various drawings may be given along with appropriate demonstration, before assigning drawing practice to the students
