

PREFACE

Curriculum document is a comprehensive plan of any educational programme. It is also one of the means for bringing about qualitative improvement in any programme. Under the Chairmanship of Financial Commissioner and Principal Secretary of Technical Education, Government of Haryana, a one day workshop was organized at National Institute of Technical Teachers' Training and Research (NITTTR formerly TTTI), Chandigarh on 21 January, 2003 in which the senior officers from Directorate of Technical Education/Board of Technical Education Haryana, Principals and Head of Departments from polytechnics of Haryana and faculty from NITTTR, Chandigarh participated and deliberated upon various issues, for bringing about qualitative improvement in the technician education system in the state of Haryana. One of the outstanding and unanimous decision of the above workshop was to review the curricula of all the diploma programmes being offered in the State of Haryana especially with a view to include appropriate levels of courses in applied sciences, mathematics, computers, engineering sciences and design new diploma courses relevant to the present day environment of changing technologies.

As a follow-up of the above workshop, this Institute took-up the revision of all the curricula of various diploma programmes in Haryana and designing of 2 new diploma courses in order to catch up with the technological developments taking place in the industry/field organizations.

The document is based on the feed back from industry/field organizations for wage and self-employment opportunities for the diploma holders in **Fashion Technology** in large, medium and small scale industries. While suggesting employment opportunities for the diploma holders, the three sectors i.e. primary, secondary and tertiary sectors were kept in mind. The document contains the study and evaluation scheme and detailed contents for all the three years to enable the Haryana Polytechnics to implement the revised curriculum from the following year itself.

While working out the detailed contents and study and evaluation scheme, the following important elements have been kept in mind:

- i) Major employment opportunities of the diploma holders
- ii) Competency profile of the diploma holders with a view to meet the changing needs of technological developments and requirements of the employment.
- iii) Vertical and horizontal mobility of the students for their professional growth
- iv) A rational approach for all the curricula of diploma programmes in engineering and technology in the state of Haryana

(ii)

The document is an outcome of the feedback received by this institute from the experts during the workshop who represented industry, institutes of higher education, research and development organizations, polytechnic faculty and NITTTR faculty.

The revised curriculum aims at developing desired professional, managerial and communication skills as per the requirement of the world of work. We hope that this revision will prove useful in turning out more competent diploma holders in **Fashion Technology**. The success of this curriculum depends upon its effective implementation and it is expected that the managers of polytechnic system including subject teachers will make efforts to create better facilities, develop linkages with the world of work and foster conducive environment as per recommendations made in the curriculum document.

DR. KM RASTOGI
Professor and Head
Curriculum Development Centre
National Institute of Technical Teachers' Training and Research
Sector 26, Chandigarh – 160 019

ACKNOWLEDGEMENTS

We are grateful to the following:

- i) Shri Dharam Veer, IAS, Financial Commissioner & Principal Secretary, Technical Education, Haryana for initiating this project of review of curriculum
- ii) Director, Technical Education, Haryana for taking keen interest and support in the review of this curriculum
- iii) All the participants from industry/field organizations, polytechnics and other technical institutions for their professional inputs
- iv) Dr. OP Bajpai, Director, National Institute of Technical Teachers' Training and Research, Chandigarh for his support and academic freedom provided to Curriculum Development Centre
- v) Dr. KM Rastogi, Professor and Head, Curriculum Development Centre, NITTTR, Chandigarh for his sustained guidance and support in designing this curriculum
- vi) Shri B.L. Arora, Joint Director, Directorate of Technical Education, Haryana for their keen interest and support in the review of this curriculum
- vii) Shri Yogendra Kaushal, Stenographer, Curriculum Development Centre, NITTTR, Chandigarh for word processing this document
- viii) Shri Mohan Lal, UDC, Curriculum Development Centre, NITTTR, Chandigarh for his support and secretarial assistance in the conduct of design workshop at Chandigarh.
